Press Release

County of Inyo Local Hazard Mitigation Plan (ICMJHMP) Needs Community Input

In January 2016, the County of Inyo kicked off the development of a Multi-Jurisdictional Hazard Mitigation Plan (ICMJHMP). This document is intended to provide a better understanding of the natural hazards affecting the county, and assist in planning for future mitigation actions. Upon completion, the County will seek Federal Emergency Management Agency (FEMA) approval of the ICMJHMP to maximize eligibility for future grant funding for hazard mitigation.

Plan preparation is occurring throughout 2016. To guide plan development, the County is conducting public outreach, which includes an online survey. To take the survey, via the internet please type the following link into your browser:

English Survey Link: <https://www.surveymonkey.com/r/38QKHJW>

Spanish Survey Link: <https://es.surveymonkey.com/r/3KFPV52>

Surveys can also be completed in hard copy at all local libraries, Inyo County - Planning Department and City of Bishop - Public Works. Opportunities for involvement and project updates will be available on the County's website at www.inyoplanning.org. Final action on the project will occur with Board of Supervisor's adoption of the plan at the end of 2016.

For questions or comments, please contact Diane Fortney, the County's Project Coordinator via:
